# Celebrating the **Magic** in all of us.

For over 25 years, Magic Moments has been producing original musical theater productions that give people of all ages and abilities the opportunity to participate in a high-quality theater company. We strive to entertain, but also to teach, to provoke, and to inspire.

## *Original Musical Theater*

The work done by the Magic Moments production team is nothing short of miraculous. They develop a story, often inspired by our own Magic Moments family, that touches the hearts and minds of everyone who experiences it. It is always original, and always reflective of the world that we live in.

## *Amateur, Special Needs and Professional Performers of All Ages*

Magic Moments is a place where anything is possible, all you have to do is believe in yourself. For everyone, professional or amateur, young or old, and all abilities including special needs, there is an opportunity within our family.

## *Acceptance Growth Learning Support*

Magic Moments is more than just a theater company – it's a family. We work hard together, we have fun, and we develop friendships that last a lifetime. We learn about each other's unique talents, and we learn to appreciate everyone for the special focus they bring to the group. Then we share our lessons of acceptance, growth, learning and support with our community.

Become a part of our vibrant, inspiring theatre family and support the important work of Magic Moments.
